### **ONLINE MONITORING**

Monitor your machines and tools to detect breakdown in time:

- 1 Connect your machines.
- **2** Identify your equipment.
- Receive notifications about failures, breakages and maintenance.

# TRACK YOUR TOOLS AND EQUIPMENTS

### ANTICIPATE MACHINE BREAKDOWN

Be prepared for unexpected machine breakdowns and avoid costly repairs.

#### **INCREASE THE EFFICIENCY OF YOUR MACHINES** Anticipate for how long a machine

can operate without maintenance.

### ORGANIZE MAINTENANCE OF YOUR MACHINES

Record the status of your machines and prevent faults in advance.

#### MONITOR ONLINE

Follow up your machines and tools in real time from any device.

Reduce your carbon footprint and make a positive impact in your community.
